

RW1000_Rower

Dimensions (L x W x H): 272 x 54 x 116 cm

Weight: 56.9 kg

- Self-generated row.
- Central row with quick tray controls.
- Air resistance + Electromagnetic brake.
- HIIT training programs.
- Adjustable pedals.
- Poly-V Belt transmission.
- Maximum user weight: 190 Kg.

Self-generated. Thanks to the powerful batteries that are charged with the exercise, the RW1000 will not need any power source.

Easy access buttons. The buttons placed in the rowing bar allow a perfect control over the exercise at all times.

Ergonomic pedals. The adjustable pedals allow a perfect position during the exercise, being able to adjust to any foot size.
